

GA::IDNA

GA::IDNA

GANN::GANN

```
graph BT; GANN[GANN::GANN] --> GA1[GA::IDNA]; GANN --> GA2[GA::IDNA];
```

The diagram illustrates a relationship where a single entity, GANN::GANN, is associated with two separate instances of GA::IDNA. A central box labeled GANN::GANN has two arrows originating from its top edge, each pointing upwards to one of two boxes labeled GA::IDNA positioned above it.
